'Twould be difficult to find a man that did not enjoy the pleasure of wearing a handsome necktie.

They all do—but they will especially enjoy one line of heavy silk four-in-hands that arrived yesterday.

We haven't even placed them in the window, so you have an opportunity of the "first look" at these catchy ties.

## MT. VERNON FAIR

The Best One Held in the History of the Association

We reiterate the statement made last week that the 1919 exhibition of the Mt. Vernon Fair was the best one ever held on the Mt. Vernon Fair grounds. The best crowds, the best floral hall and the best show rings. At first it seemed that the failure of the shows, merry-go-round or any of the side attractions which failed to arrive to make the midway would work a hardship, but not so. "LET US GET TOGETHER."

IN the last few years there has been much improvement in Rockcastle. But we were so far behind that we must put in extra time in order to catch up and be abreast of other towns and counties. Rockcastle ought to have right now the best roads in the state because the best material out of which roads are built is found in abundance right here. Instead of having fields of briar patches we should have show farms, because all the western and northern parts of our county lays well and can be made most fertile and productive. Too much of our land has been idle and the other has been poorly cultivated. But, with the coming of good roads and the advent of better prices for farm products, the cultivation of our land has increased with splendid financial results. The farmers are just beginning to wake up and see the wonderful possibilities in the farm. They are improving their homes and "putting in" many conveniences to save labor and drudgery. They are getting the most improved machinery and installing the best grade of stock. In other counties the farmers unite in an association and through that organization buy the best thoroughbred sires obtainable. This plan has proven most helpful and successful. Why could it not be done in Rockcastle? It can be and should be done. It is apparent that the farmers of this county do not yet fully realize the necessity and benefits of co-operation and organization. We are sadly in need of more men who are willing to serve in a broader capacity. Who not only can till their own farms in a modern way, but who for the benefit of themselves as well as others, can start the ball of co-operation rolling. We have just had a teacher's institute, which was a school for farmers, but our people did not fully comprehend the great benefits to be derived from regular attendance upon its sessions. Too few were present and entirely too many of our farmers were absent. Let those who know preach the benefits of such an institute, for it is to be greatly hoped that next year we will have another. In the meantime, let us all cease so much sleeping. Arouse ourselves to the needs of opportunities of the day. May we determine to urge and fight for better roads; more intensive and intelligent farming; larger attendance at schools and more efficient teachers. The time has arrived when we must be up and doing—help ourselves and advance others. Stop right now and ask yourself the question—what am I doing to help make my community better and more prosperous? If your answer is NOTHING, then bestir yourself and do something. Let your daily admonition to self be: Do something! do something, do something, and repeat it every day.

They had about 2550 whole tickets and 450 half, besides those on passes. The weather fine, merry go round and Ferris wheel running double time. ## OPPORTUNITY KNOCKING.

During the past eighteen months Robert Spence, of Berea, Madison county, has been spending more than one-half of his time in Rockcastle county advocating better farming, more and better live stock, in fact preaching every modern method for the making of prosperity and happiness in our county. Permit me just here to enumerate a very few of the many things accomplished:

First, the following live stock has been placed in the county: 15 registered shorthorn bulls worth ..... \$2250 15 pure bred sows ..... 1200 22 pure bred boars ..... 1650 9 pure bred cows & heifers 1125 11 pure bred bucks ..... 440 Total ..... \$6665.

Add to this 5000 pure bred chickens at \$1. each \$ 5000. During 1918 there was \$11250. worth of live stock vaccinated, cattle for black-leg; hogs for cholera. This service being rendered at absolutely no cost to our farmers except a small charge for serum used.

At the time Mr. Spence began his active work in our county, we had about 3000 sheep on our farms, now the hills are dotted with more than 5000. The wheat sown in 1917 for 1918 crop was 875 acres. The crop just harvested was 3385 acres, an increase of nearly 400 per cent. The U. S. Department of Agriculture, The State University and Berea College have been paying for this splendid service, our county court having failed to appropriate for the same.

Now we are asked for \$400. to assist in keeping this splendid work going on. Will our Fiscal Court act in our behalf? Action must be taken, and at once, if we hope to ever have the services of a County Agent, without at least appropriating \$1000. per year. I repeat, action must be taken at once. Robert Spence has struck the death bell to the brindle bull and the ridge-rooting boar. Let us expect and demand that this splendid work be kept up. We see for Rockcastle county the home of pure bred live stock, better farming, peace, plenty and happiness. Now to the Fiscal Court: This matter is directly up to you. You cannot serve two masters. Will you allow this golden opportunity to pass, take a step backward, or will you grasp the opportunity as your people are demanding and blaze the way farther for our boys and girls into modern civilization. A. B. LEWIS.

## OIL NEWS.

On the farm of Gus Staverson one and one-half miles west of Mt. Vernon, a well is being drilled. The well is being drilled by the W. J. Sparks Co., for the Wiser Oil Co., of Sistersville, W. Va. The formation and everything is very encouraging and there is really more hope of finding oil than in any of the 60 or 70 wells which have been put down in the county.

About three miles north-east of Livingston the Victor Drilling Company is now putting down a well.

MANUFACTURER MAKES IT CLEAR HE BELIEVES COVENANT IS GREAT STEP.

## DECLARES "WAR IS MURDER"

Whirlwind of Questions Fall to Shake Composure of Man Who Sues for Million Because He Was Called "Anarchist"

Mt. Clemens, Mich.—The high idealism of Henry Ford has freshened the proceedings of the Ford-Tribune libel case and has brought into the wearisome arguments of counsel and the dull repetition of cross-examinations, a new quality.

For a week the man who has been described as everything from an "anarchist" to the greatest patriot of his day, has been on the stand facing a merciless fire of questions.

During the reading of an article written by John Reed on Henry Ford, and published in the Metropolitan Magazine, the audience in the court chamber violated all precedent by breaking into applause and Mr. Ford, visibly embarrassed, raised his hand in protest.

Tribune counsel had endeavored to quote paragraphs from the Reed article but had been compelled, by objection of Ford attorneys, to introduce the interview in its entirety. In the main it was highly complimentary to Mr. Ford.

## "Make Farmer Independent"

"What I want to do," Mr. Ford was quoted as saying, "is to make the farmer as independent as I am; independent of the banks, independent of the trusts, independent of the railroads." The audience, many of them from the surrounding farms of this community, showed visible evidence of its appreciation of that ideal.

Twice Mr. Ford, wearying of the questions having to do with his knowledge of history, said "Oh, I'll admit that I'm an ignorant idealist if you wish."

"What is an idealist?" queried Tribune counsel. The innate goodness of the man lighted up his kindly eyes with a new light, as he leaned forward and answered slowly, "I think an idealist is one who tries to make people happy and prosperous. I think I do that a little."

Quiet, unassuming, courteous and patient, Henry Ford made a deep impression on the audience. Not once did he lose his temper under the heckling of opposing attorneys, even when their questions verged on the edge of insult. But when the examination touched on subjects which are close to his heart, the League of Nations, war and the happiness and prosperity of Humanity, counsel found him eagerly alert.

A League of Nations, or preparedness up to the hilt. That is the way he sees the situation today. "We must either," he said, "accept the covenant of peace or democracy must arm and stand guard forever at the threshold of liberty."

## "War is Murder"

He hammered that fact home and with it he always added, "War is murder."

"I was a murderer," he said, "I was a helper of murder. When the crisis came we all took a hand. But it is all the same. War is murder."

"What do you mean by murder?" "I mean killing people."

"Killing people to protect the interests of the people?" "Killing anybody or anything. I don't know what else war is. War is murder. There is a far better way."

"What is the better way?" "Why, to educate people. To teach them to think for themselves."

A long examination was conducted which sought to quiz Mr. Ford concerning his views on history, based on a remark which he once made that "I wouldn't give five cents for all the history ever written."

"I don't think much more of it now than I did then," testified Mr. Ford. "The war showed us that history didn't last a week. All the things they told us would happen didn't happen. They went ahead, knowing what war meant, and made the same mistakes all over again. The history we write today is the thing that counts. I'm not interested in yesterday."

## The Flag of Nations.

The much discussed flag of a League of Nations, which it has been stated Mr. Ford was having made in his factory before the United States entered the war, was brought into court. The testimony developed the fact that Mr. Ford did not originate the design of the flag and had never seen the banner itself. He saw a small drawing of it once in St. Paul's Cathedral, Detroit, he said, but had never heard of it again and knew nothing about it. He denied emphatically that he ever said he would raise this flag above the Stars and Stripes, and said the statement that he revered this banner above the flag of his country was "A terrible thing to say about an American."

## CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

## FORD CLEARED; NOT ANARCHIST

JURY IN FAMOUS LIBEL SUIT FINDS FOR PLAINTIFF AND DECLARES TRIBUNE GUILTY.

DELIBERATE TEN HOURS

Farmer Jury Which Has Spent Three Months in Court Is Out Ten Hours and Then Finds Paper Guilty of Libel.

Mt. Clemens, Mich.—Henry Ford is not an anarchist!

A jury of 12 farmers have said so by their verdict, in which they found The Chicago Tribune guilty of libel when it attached that stigma to the name of the great manufacturer.

"We find the Chicago Tribune guilty and attach a verdict of six cents."

This sentence from the foreman of the jury which for three months has listened to the most famous case of its kind in history and which debated more than 10 hours before it arrived at its conclusion, were the lines of the final act in the dramatic event which has attracted the attention of the entire country.

Henry Ford himself was not in court to share in the triumph. He was in the New Hampshire woods with his friends, Thomas Edison and John Burroughs. Judge Alfred J. Murphy of Mr. Ford's counsel made a formal statement for his principal:

"Ford is vindicated."

"The important issue has been determined," said Judge Murphy. "Money damages were not sought by Mr. Ford. He stands not only vindicated but his

HENRY FORD

attitude as an American citizen has been justified after a trial which raised every issue against him that ingenuity and research could invent."

Outside the courthouse crowds had gathered during the evening hours to await news of the jury which had been closeted in conference since morning. As the courtroom emptied after the announcement of the verdict and the news of the decision rendered spread, cheer after cheer broke forth and a band, returning from a picnic, stopped to add its brass notes to the din.

There was a tense moment when the jurors filed into the box for the last time. Their foreman, in a voice shaking with the emotions of the moment, spoke in such a low tone that he could scarcely be heard. The clerk read back the formal verdict:

"You do say upon your oath that the said defendant The Tribune company, is guilty in the manner and form as the said plaintiff hath in his declaration in this case complained against him and you assess the damages of the said plaintiff on occasion of the premises over and above his costs and charges, by him about this suit and in his behalf expended, at the sum of six cents damages."

The editorial which The Tribune attacked Henry Ford and branded him as an anarchist was printed in 1916. The case has been fought through several courts on one point or another ever since, finally arriving through a change of venue asked by The Tribune in Mt. Clemens.

The charge which Judge Tucker made to the jury dealt mainly with the laws of libel and contained among others, the following points:

"The Tribune claims that they carefully inquired as to what Mr. Ford's attitude was going to be as to the care of his men who joined the national guard and that they based the editorial characterizing him as an anarchist on that information. They admit the publication and insist that it was true and therefore justified; and that even if not true it was fair comment upon a matter of public interest, either of which defenses are sufficient if proven true. The burden, however, is upon the defense when they attempt to make either of the defenses mentioned. They must establish either the truth of the charge they made, or that it was fair comment within the meaning of that term."

"A newspaper has the same right as an individual to its opinions and convictions—no more and no less." The court further informed the jury that if they found that the charge was untrue they must find for the plaintiff. He declared that there was nothing ambiguous about the editorial. It called Mr. Ford an anarchist and the only way the defendant could escape being found guilty of libel was to prove that charge. He said further that the jury must accept the popular conception of the meaning of the term "anarchist."

Counsel for The Chicago Tribune made no effort to appeal the case and accepted the verdict as it stood.
